HIDDEN IN THE HEART

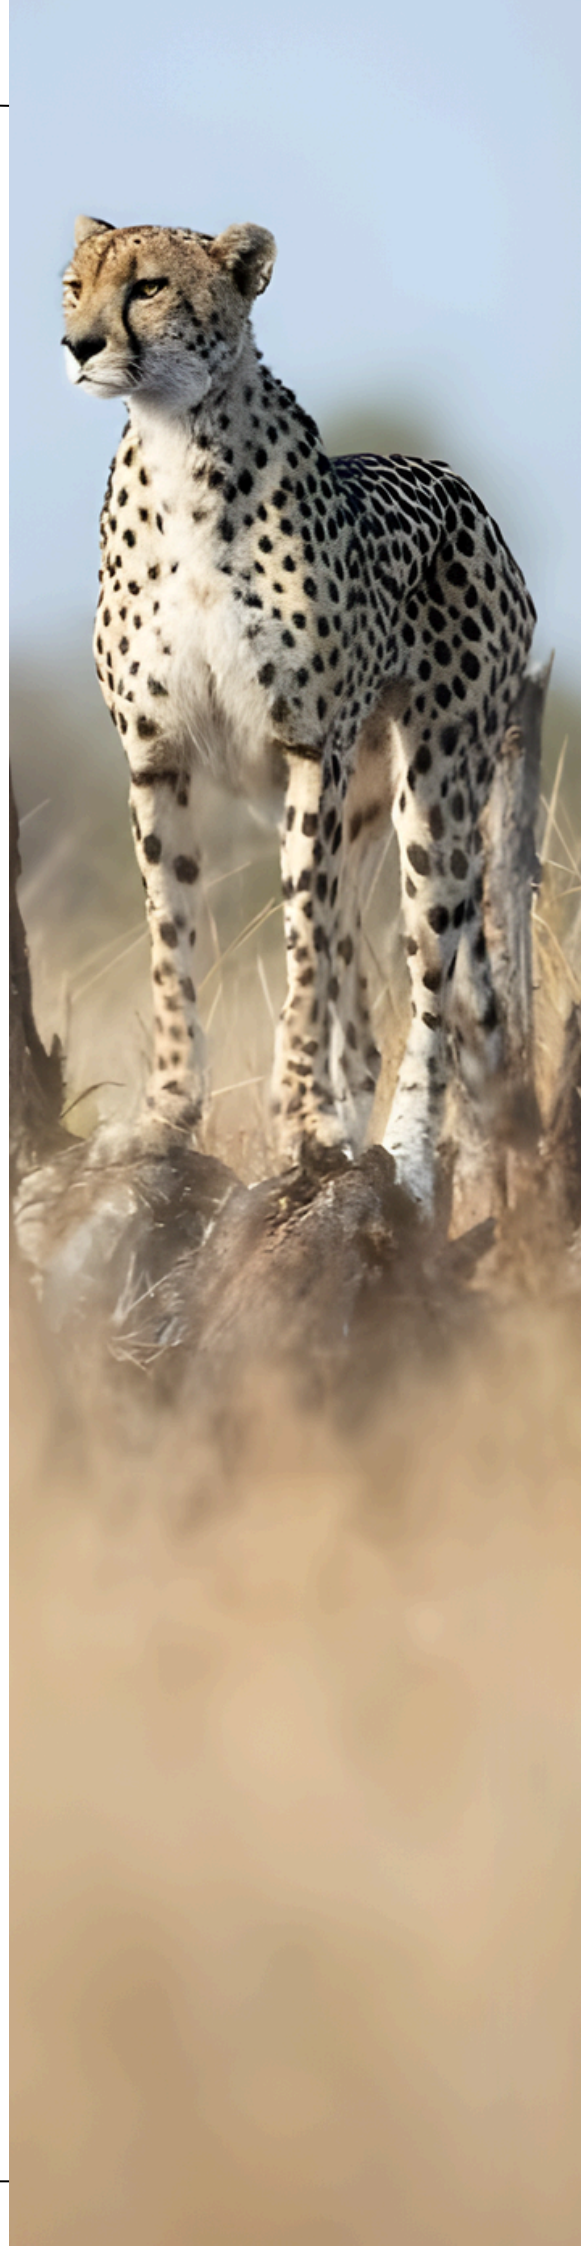

of the wild

Experience Kruger Untamed's hidden sanctuaries, where wild horizons and untamed landscapes welcome you into a place of quiet beauty. Our canvas suites offer comfort without compromise, yet always keep you close to the rhythm of nature. Here, the soundtrack is the call of birds, the rustle of grass, and the crackle of firelight – each moment an invitation to slow down, breathe deeply, and reconnect with yourself and the wilderness.

From 1 May to 30 September each year, Kruger Untamed returns for a fleeting season, creating two exclusive camps that vanish without trace when the time is done. Both Tshokwane River Camp and Satara Plains Camp are temporary by design, but deeply enriching for those who come to share in them.

Tshokwane River Camp offers a refined slow-safari experience, crafted for guests who value depth and detail. With just 20 tents set in one of Kruger's richest wildlife areas, it is a camp shaped by intimacy and immersion. Elevated dining, a carefully considered beverage list, and fireside storytelling enrich each day, while the surrounding terrain is perfect for long walks and expert tracking on foot. This is classic safari in its purest form – unscripted, unfiltered, untamed.

Satara Plains Camp is the social heartbeat of Kruger Untamed. Set on open savannah near a natural spring, its 30 expedition-style tents place you in the heart of "cat country," where big skies and predator-rich landscapes create thrilling safari days. Hearty meals, evenings gathered around the fire, and flexible safari options bring people together in a spirit of adventure and connection. Satara is bold yet welcoming – a celebration of freedom beneath Africa's wide sky.

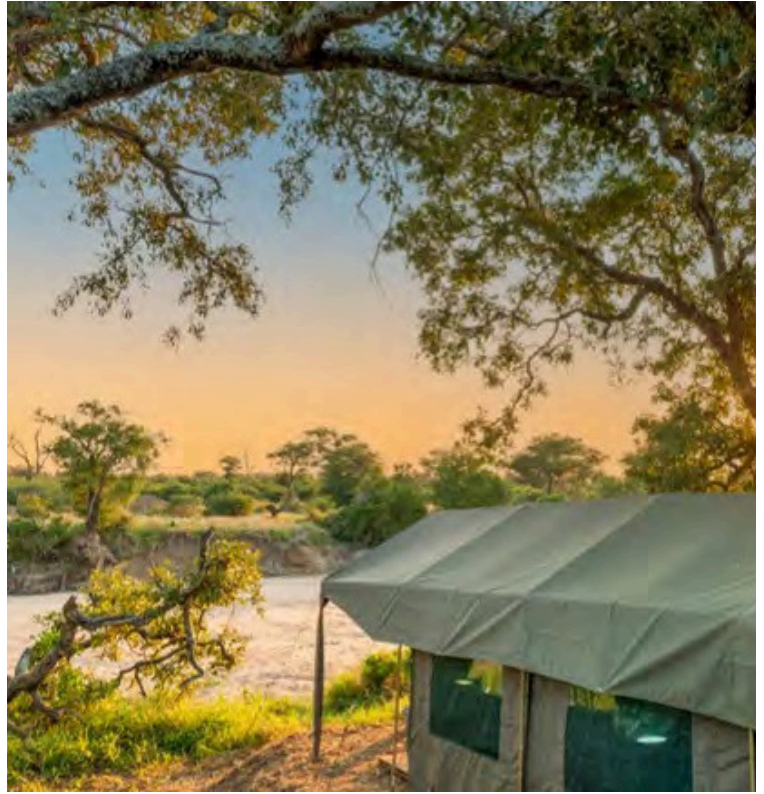

TWO EXTRAORDINARY LOCATIONS

In 2026, Kruger Untamed continues with two camps—both seasonal, both immersive, both committed to service and authentic safari. Each, however, has its own rhythm and personality.

TSHOKWANE RIVER CAMP

Tshokwane River Camp is a smaller retreat of just 20 tents, designed for travellers who prefer a slower pace and deeper immersion in nature. Conveniently located around 90 minutes from Skukuza Airport, it sits in one of the most wildlife-rich regions of the Kruger, ensuring consistently rewarding game viewing throughout the season.

Here, safari is both refined and grounding. Daily activities include game drives as well as walking safaris with expert trackers, offering the chance to follow spoor on foot and experience the bush from a fresh perspective. Dining and beverage experiences are thoughtfully curated, adding a touch of elegance to each day, while the camp itself rests beneath trees along the seasonal Ripaperiverbed – a sanctuary of shade and tranquillity.

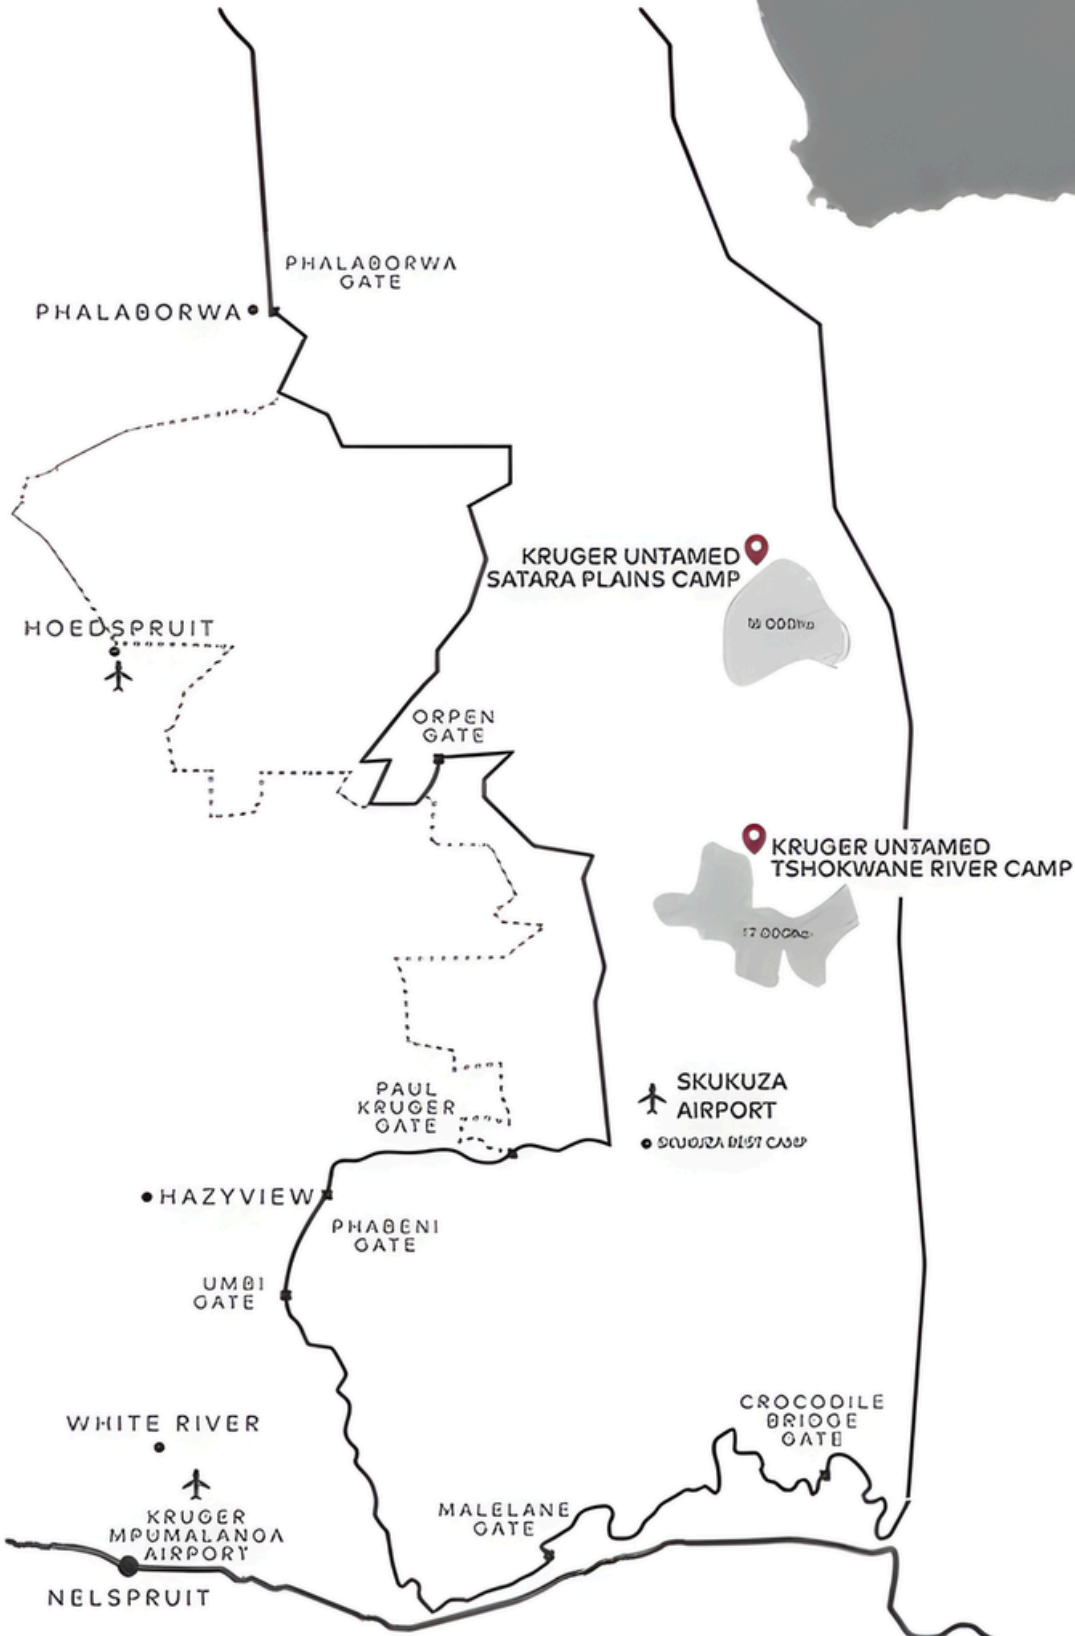

SATARA PLAINS CAMP

Satara Plains Camp is the larger and more social of the two Kruger Untamed camps, with 30 tents set across open savanna. It is well suited to groups, families, couples, and solo travellers, creating a welcoming atmosphere where people come together to share in the adventure.

The base rate includes one daily game drive, with the flexibility to add extra drives or guided walking safaris at a surcharge, allowing guests to shape the experience to their own pace. Meals are hearty and satisfying, evenings are lively around the fire, and the setting in wide, predator-rich plains makes for a classic Kruger safari. Satara offers an accessible entry point into Kruger Untamed, with layered rates designed to give every traveller the chance to tailor their stay.

CHILD POLICY

Children over the age of 12 are welcomed at Kruger Untamed.

ENVIRONMENTAL PLAN

At our seasonal camp, we take great care to ensure that our impact on the land is minimal. We bring in everything we need for our guests' comfort, but we also make sure that everything is removed entirely when we leave, allowing the land to restore itself during the months in which we don't operate. Our commitment to the environment is reflected in our strict environmental management plan, which is audited regularly and can be viewed by anyone who is interested. So you can rest assured that when you stay with us, you're not only enjoying a comfortable and relaxing experience, but also doing your part to help preserve our beautiful planet.

Being a seasonal camp comes with its own set of challenges, one of which is the limited access to resources such as power and water. To address this, the camp relies on a combination of generator and solar power. While the generator provides a reliable source of energy, the camp also utilizes solar power to reduce its carbon footprint and decrease its reliance on non-renewable resources. Additionally, water limitations are carefully managed through the use of low-flow fixtures and conservation practices, such as encouraging guests to take shorter showers and reuse towels. These efforts not only ensure that the camp is environmentally responsible, but also help to maintain a sustainable operation for future seasons.

Furthermore, at Kruger Untamed, we take great care to minimize our environmental impact by reducing our carbon footprint in a number of ways, including:

- Implementing recycling programs throughout the property.
- We source our ingredients locally.
- We rely on alternative electricity generation.
- We make use of low impact, chemical toilets which gets cleaned daily.
- We make use of butler-filled safari showers.

These efforts not only ensure that the camp is environmentally responsible, but also help to maintain a sustainable operation for future seasons.
